

Product Specifications

Watermelons

Grade: U.S. #1

U.S. #1 consists of watermelons that have similar varietal characteristics, are mature, fairly well formed, not overripe, and are free from Anthracnose, decay, sunscald and damage by any means.

Size –

Size may be specified in terms of weight, minimum weight or minimum and maximum weight. When the size of the watermelons is stated in terms of average weight, unless otherwise specified, the melons in any lot averaging less than 30 pounds shall not be more than 3 pounds below the state average.

Definitions –

- “Mature” means that the watermelon has reached the stage of development at which the flesh is at least fairly sweet and shows characteristic color of a mature watermelon for the variety.
- “Fairly well formed” means that the watermelons have characteristic shape but not necessarily the perfect type of the variety.
- “Similar varietal characteristics” means that the watermelons are similar in shape and color.
