

The Giumarra Companies

Organic

Grown by Mother Nature.

At the core of the Nature's Partner[™] brand is an extraordinary relationship between our growers and the land and its fruits. Having farmed their land for generations, our growers have a passion for delivering wholesome and fresh products to customers around the world.

Our growers also understand their impact on the land and our environment. Our growers use the best of what Mother Nature provides in order to produce the best tasting organic produce available. From using insects like lady bugs and wasps to control pests to adopting earth-friendly means to maintain and replenish soil fertility, we are dedicated to operating under sustainable and responsible farming practices.

Giumarra now offers USDA-certified organic grapes, vegetables and an assortment of other fresh fruits.

It's not just organic. It's Nature's Partner Organic.[™]
